SMELTING BREAKS BADLY ON 'CHANGE

The same is true of the returns from the iron and steel trade, where the revival is going on steadily, but admittedly slowly. Conditions in the money and exchange markets were little changed. Discounts eased in London, in spite of large withdrawais of gold from the Bank of England for export. The Bank of France return was weaker, and discounts advanced at Berlin. The general bond market was irregular. Total sales, par value, \$5, 256,000. United States bonds were unchanged on call. Total sales to-day, Bat 171,500 shares of stock.

Y., September 3.—The champion pauper is dead after being a public charge for eighty-five years. Hezeklah Monk was born in the Herklimer county poorhouse eighty-five years ago, spent all his days there and died in that institution to-day. Charles M. Watkins (colored) was arrested yesterday by Policeman Watkins on a charge of having cruelly tortured a horse.	and storm conditions of last week, jemporary bridges and new track has replaced the washed portions of the roadbeds, and actedules are being rapidly restored. The Seaboard Air Line announced yesterday that its entire line was now open from Ricamond to Jacksonville and Tampa as well as the vertern connections to Atlanta and Memphis. HAD A GREAT TIME Emanuel Sunday-School Children Make Merry at Lakeside. Out at Lakeside yesterday the children of Emanuel Church Sunday school, together with relatives, friends and others interested, enjoyed, a day of sport the like of which has not been seen since the picnic of a year gone by. Not less than 200 gathered under the trees for luncheon, and then scattered over the green sward to play at all manner of games, to fig kites, run races, to engage in tugs of war, and, indeed, to find delight in every pastime which appeals	scholars and grownaps, all of whom performed wonders in the field of athletics. This for the sterner sex—but the girls were no less strenous, for under the girls were no less strenous, for under the girls he handkorchief, to "puss in the corner" found instant and lasting favor. Late in the afternoon there was as fine an example of lee-cream eating as one could wish to see, but the record made four years ago of fifteen saucers was not broken. As a parting feature every child was piesented with sift by Mr. Bryan, who made appropriate remarks, which were greatly applauded. The absence of H. S. H., the sweet song writer, was much deplored. DRY GOODS MARKET.

NEW YORK, September 3.—Reports to the dry goods market from men's wear, houses are to the effect that business is substantially better in spot goods and some reorders are already beginning to come forward on spring goods. The cetton goods trade for the day was fairly steady, the demand being for small lots generally for early shipment. Raw slik factors are finding the demand more steady from the mills. Jobbers had a fairly good day. DRY GOODS MARKET.

DUN'S REPORT OF BANK CLEARINGS FOR AUGUST

Midsummer dulness in trade usually reduces settlements through the banks to the smallest colume of the year, and while August bank clearings still denote considerable curtailment they are now more nearly normal than for any month for nearly a year, exceeding in amount four of the seven preceding months this year. R. G. Don & Co., report total bank exchanges for the month for more than one hundred cities in the United States, all that report, of \$10,235,877,439, 11.4 per cent. under the corresponding month last year. One business day less in the month this year makes the comparison slightly more unfavorable than it should be, average daily bank exchanges for the month showing a loss of only 8.0 per cent.; compared with August, 1906, the loss is somewhat larger, but this is mainly due to the heavy decrease at New York City, where stock market operations two years ago were exceptionally active, raising August bank clearings above three of the seven preceding months, instead of their being at the lowest point of the year. There are again some gains at some of the smaller cities, but losses in comparison with both preceding years continue to predominate. The August report denotes some improvement in the volume of payments through the banks, but the improvement is naturally very slow. Comparison is made below of bank exchanges by sections covering three years; also the average daily figures for August and the seven pre-

ceding months:
